

Oil-Free Silent Air Compressor

This silent and oil-free compressor is designed for applications requiring clean and quiet compressed air. Its oil-free operation ensures the output air is free from contamination, making it suitable for sensitive operations.

Overview

Clean and Quiet Performance

This silent, oil-free air compressor is designed for high-performance applications where purity and noise control are essential. Its oil-free design ensures the output is free from contaminants, making it ideal for medical, dental, and food processing environments. The unit features robust construction with a 50L tank capacity and integrated safety systems for reliable, consistent daily use.

Technical Specifications

Power Rating

1500 W

Power Input

2 HP

Horsepower

Performance Specs

Metric	Value
Max Pressure	8 bar (115 psi)
Air Flow (50Hz)	280 l/min
Air Flow (60Hz)	330 l/min
Rated Speed (50Hz)	2850 /min
Rated Speed (60Hz)	3450 /min

Physical & Operational

Tank Capacity	50 L
Weight	30/32 Kg
Compatible Voltages	110-120V/60HZ, 220-240V/50HZ

Compliance & Support

Warranty Period	1 Year Warranty
Place of Origin	Ningbo, China
