Product Overview

High-Performance Medical Air Solutions

Designed specifically for sensitive dental and medical environments, these oilless air compressors provide a reliable source of clean, impurity-free air. With power outputs ranging from 1040 to 1980 Watts, they are engineered to meet the rigorous demands of professional healthcare settings. The system is completely noiseless and maintenance-free, ensuring consistent performance without disrupting clinical operations.

Technical Specifications

Power Output Range

1040 W

Minimum Power

1980 W

Maximum Power

Lubrication Type

Oilless

Maintenance

Maintenance-free

Application & Features

Key Operational Benefits

- Noiseless operation
- Impurity-free clean air output
- Maintenance-free design
- High reliability for sensitive environments

Suitable Applications

Dental Clinics, Medical Facilities, Laboratories
