

# OLED Television

This OLED television features self-emitting pixels for exceptional picture quality. It offers wide viewing angles, fast response times, and multiple HDMI and USB ports for seamless connectivity.

## Product Overview

The OLED television series offers a sleek, slim profile combined with 4K resolution and HDR support for an immersive viewing experience.

## Experience Unparalleled Visual Quality

This OLED television features advanced self-luminous pixels that emit and control light independently, ensuring perfect blacks and infinite contrast. With 33 megapixels, the display delivers vivid colors and natural, realistic images for an immersive viewing experience. Enhanced with Dolby Vision and Dolby Atmos, this TV transforms your home into a cinematic powerhouse, providing astonishing realism in both image and sound.

## Display Technology

**OLED self-luminous**  
Each self-emitting pixel can emit and control light independently, featuring 87000:1 dynamic contrast, richer image layering, no light leakage and color cast, beautiful and vivid image.

**Perfectly Pure Black**  
Just like the end-of-the-world scene in the dark sky, OLED's unique pixel-independently and light-control technology precisely controls each pixel to deliver a cinema and more realistic dark image.

**Perfect Colors**  
33 megapixels provide unprecedented clarity images. HDR10+ provides perfect light control technology can bring out vivid color, every image a natural and realistic appearance.

**3GB RAM** \*View according to platform configurations  
Larger RAM reduces loading and switching time, brings smoother operation.

**Advanced technologies from the cinema for your TV**  
The fusion of Dolby Vision and Dolby Atmos transforms your TV into an entertainment powerhouse. These image and sound technologies work together to bring you the best home cinema viewing experience that you've ever had.

Dolby Vision is cinema HDR that brings TV to life with a variety of imaging—enhancing highlights, color, contrast, detail, and dimensionality.

Dolby Atmos lets you inside the action with bigger, more encompassing sound that fills your room—more contrast—and immerses you in your entertainment.

Detailed breakdown of the self-luminous pixel technology, contrast ratios, and the integration of Dolby Vision and Atmos.
