

Omnidirectional Antenna

This high-performance omnidirectional antenna is designed for reliable signal transmission and reception. It features a robust construction for durability and consistent performance in various environmental conditions.

Product Overview

High-Performance Omnidirectional Antenna

This omnidirectional antenna series features advanced SMD circuit technology and is shielded to ensure minimum signal interference. With a stylish, compact design and a sleek shiny black finish, it integrates seamlessly into any setup. It provides excellent reception for digital, freeview, and analog TV signals, while being fully compatible with HDTV and DAB/FM radio systems.

Technical Specifications

Circuit Technology

SMD Technology

Supported Signal Types

FM, VHF, UHF, Digital TV, Analog TV, Freeview, HDTV, DAB

Amplifier Features

Built-in high gain and low noise amplifier

Interference Shielding

Yes

Design & Aesthetics

Finish

Shiny black

Design Style

Stylish and compact
