Product Overview

High-Efficiency On-Demand Water Heating

This tankless gas water heater is engineered for residential use, providing reliable hot water on demand. Featuring an advanced digital interface for precise temperature control, the unit combines energy-efficient combustion technology with robust safety mechanisms. Its compact design and integrated antibacterial protection make it an ideal choice for modern indoor installations.

Key Performance Metrics

Capacity

16 L

Water Output

Technical Specifications

Model Number	JSQ23-12BCQ1
Installation Type	Indoor

Safety & Features

Hygiene Technology

Ag+ Antibacterial • Bacteriostatic Silver Ions

Safety Systems	Overheat Protection, Flame Failure Detection, SAFE CARE Technology
