

On-Ear Wired Headphones

These on-ear headphones provide a frequency range of 20Hz - 20KHz and an impedance of 32 Ohm. The headphones have a 1.2m cable for connecting to a variety of devices.

Overview

Designed for Comfort and Clarity

These on-ear wired headphones are engineered for reliable, everyday audio performance. Featuring a lightweight design with padded earcups and an adjustable headband, they provide a secure and comfortable fit for extended listening sessions. With a standard 3.5mm connection, they offer broad compatibility for music, podcasts, and general audio playback.
