

One or Two Person Earth Auger

This earth auger combo is designed for drilling holes in the ground for various applications such as planting trees, installing fence posts, and soil sampling. It can be operated by one or two people, depending on the size and depth of the hole being drilled.

Product Overview

Versatile Earth Augering Solution

This powerful earth auger is engineered for efficient drilling in a variety of soil conditions, making it an ideal tool for planting trees, installing fence posts, and soil sampling. Designed for flexibility, the unit can be operated by one or two people depending on the specific project requirements. With its high-performance engine and durable construction, it delivers reliable results for professional landscaping and construction applications.

Performance & Engine

Engine Displacement

52 cc

Engine Capacity

Engine Type	2-Cycle
Starting System	Cold-Start Super Charger

Drilling Capabilities

Cutting Diameter	10 inch
Blade Material	High Carbon Steel

Design & Ergonomics

Operation Type	Single-person operation, Dual-person operation
Handle Features	Oversized recoil handle designed for use with or without gloves
