

Online Uninterruptible Power Supply (UPS)

This online UPS provides reliable power protection for critical electronic equipment. Its double-conversion technology delivers clean, stable power, isolating connected devices from power disturbances.

Overview

KR33 Series Online UPS

The KR33 series Online UPS provides reliable power protection for critical electronic equipment. Featuring double-conversion technology, it delivers clean and stable power, isolating connected devices from power disturbances. With its advanced battery management system, it maximizes battery life and provides extended runtime during power outages, making it ideal for servers and networking equipment.

Key Features

Technology	Double-conversion Online UPS
Protection Features	Automatic Voltage Regulation, Power Disturbance Isolation, Advanced Battery Management

Technical Specifications

Communication Interfaces

- SNMP
- Remote Monitoring
- Remote Control

Ideal Applications

Servers • Networking Equipment • Sensitive Electronics
