

Opaque Spherical LED Light Bulb with Screw Base

This is an opaque spherical LED light bulb with a standard screw base. The bulb provides a wide beam angle and distributes light evenly, creating a soft and comfortable ambiance.

Product Overview

Efficient Illumination Solution

This opaque spherical LED light bulb is designed to provide high-quality, evenly distributed illumination for a variety of professional and commercial settings. Its specialized opaque material effectively diffuses light to minimize glare and create a comfortable ambiance. With a standard screw base, it ensures easy installation and serves as an energy-efficient, long-lasting replacement for traditional incandescent lighting.
