Product Overview

Professional Wall-Mounted Air Circulation

This mechanical wall-mounted fan provides efficient air circulation while maximizing floor space. Engineered for durability, it features an in-house produced motor and is available in multiple blade configurations to suit diverse cooling needs. With simple pull-chain operation and adjustable oscillation, this fan is a reliable solution for maintaining comfortable environments in various settings.

Technical Specifications

Rated Power	45 W
Voltage Compatibility	110-127V, 220-240V
Speed Settings	3
Power Cord Length	1.5 m

Design & Build

Blade Materials & Types

- 3 PP Blades
- 5 AS Blades
- 4 ABS Blades
- 3 Aluminum Blades

Grille Construction	Metal Line Fan Grille
Motor Type	Mixed/Pure Copper

Compliance

Certifications

CE • RoHS • ErP • REACH • CB • GS

Logistics & Packaging

Container Loading (40'HQ)

Model	Size	Quantity
