

Outdoor Digital Signage Enclosure

Durable enclosure designed for electronic signage and control panels. It provides protection from the elements with a hinged cover for easy access.

Overview

Robust Outdoor Protection

This durable outdoor enclosure is precision-engineered to protect electronic signage and control panels from harsh environmental conditions. Featuring a secure, hinged cover design, it provides easy maintenance access while ensuring the safety of your hardware. It is an ideal solution for housing tablets and sensitive electronic devices in public or industrial outdoor settings.

Design & Construction

Material	Weather-resistant construction
Access Mechanism	Hinged cover

Applications

Environmental Suitability	Weather-resistant • Outdoor-rated
Primary Applications	Digital Signage, Control Panels, Tablet Housing, Outdoor Electronics
