

Outdoor Digital TV Antenna

This high-gain outdoor TV antenna is designed for optimal reception of digital television signals. Featuring a robust construction with multiple elements, it provides enhanced signal strength and clarity for over-the-air broadcasts.

Product Overview

High-Performance Outdoor Digital Reception

This high-gain outdoor TV antenna is engineered to deliver superior signal strength and clarity for over-the-air digital television broadcasts. Built with a robust, multi-element construction, it provides reliable performance in both VHF and UHF frequency bands. Its durable design is specifically tailored to withstand challenging outdoor weather conditions, ensuring long-term operational integrity. This unit is an ideal solution for homes located in areas with weak signal strength or significant distance from broadcast towers.

Technical Specifications

Application

Weak Signal Areas • Long-range Reception • Outdoor

Supported Frequency Bands

VHF, UHF

Mounting Method

Mast or Pole Mount

Weather Resistance

Yes
