

# Outdoor Digital TV Antenna

This high-gain outdoor TV antenna receives digital terrestrial television signals. Its multi-element design includes reflectors, directors, and driven elements to maximize signal reception for both VHF and UHF frequencies.

## Product Overview

### High-Gain Digital Reception

This high-gain outdoor TV antenna is engineered to deliver superior digital terrestrial television reception. Featuring a sophisticated multi-element design, it captures both VHF and UHF frequencies to ensure extensive channel compatibility. Its robust, weather-resistant construction guarantees reliable performance, effectively reducing signal dropouts and pixelation for crystal-clear HDTV viewing.

## Technical Specifications

### Signal Performance

- HDTV compatible
- High-gain reception
- Reduced signal pixelation
- Minimized broadcast dropouts

### Frequency Bands

VHF, UHF

## Physical Properties

### Weather Resistance

Outdoor Rated • Robust Construction

### Antenna Architecture

Multi-element design with integrated reflectors and directors
