

Outdoor Digital TV Antenna

This high-gain outdoor TV antenna is designed for optimal reception of digital terrestrial television signals. Featuring a robust construction for durability in various weather conditions, it incorporates multiple elements to maximize signal capture and minimize interference.

Product Overview

High-Gain Digital Reception

This outdoor digital TV antenna is engineered for superior terrestrial signal reception, featuring a high-gain design that maximizes capture while minimizing environmental interference. Built for longevity, its robust construction ensures reliable performance across diverse weather conditions. The unit arrives pre-assembled for rapid installation, offering a streamlined solution for high-quality over-the-air broadcasting.

Technical Specifications

Frequency Compatibility	VHF, UHF
Installation Type	Pre-assembled
Weather Resistance	Yes

Hardware Included

Included Mounting Hardware

- Mast attachment hardware
- Pole mounting kit
