

Outdoor High-Intensity Floodlight Fixture

High-intensity floodlight fixture designed for outdoor lighting applications. It features a robust housing and a reflective interior for efficient light distribution.

Product Overview

High-Intensity Outdoor Lighting Solution

This high-intensity floodlight fixture is engineered specifically for demanding outdoor lighting applications. Featuring a robust housing and a high-efficiency reflective interior, it ensures optimal light distribution across large areas. It is an ideal choice for illuminating expansive spaces such as parking lots, sports fields, and building facades.
