

Outdoor LED Advertising Lightbox

This outdoor LED advertising lightbox provides high brightness with uniform illumination, ensuring clear visibility. Its durable, weather-resistant construction and energy-efficient design make it suitable for long-term outdoor use.

Overview

High-Performance Outdoor Illumination

This outdoor LED advertising lightbox is engineered for maximum visibility and durability in open environments. Featuring advanced LED strip configurations, it delivers uniform, high-brightness illumination up to 2000lux while significantly reducing energy consumption compared to traditional lighting solutions. Its modular, waterproof design ensures reliable, long-term performance with minimal maintenance requirements.

Performance Metrics

Center Illumination

2000 lux
Brightness

LED Lifespan

50000 hours

Energy Efficiency

Energy Consumption Comparison

Lighting Type	Consumption vs. LED
T8 Lighting	150% (Uses 250% more power)
T5 Lighting	166% (Uses 166% more power)
EEFL Lighting	500% (Uses 500% more power)

Durability & Build

Protection Rating

Waterproof, Anti-dust, Moisture-proof

Construction Materials

Aluminum alloy housing

Maintenance

Maintenance Design

- Modular LED strip design
- Easy assembly
- Reduced replacement frequency
