

Outdoor LED Flood Light

This high-intensity LED floodlight is designed for outdoor illumination. It features a robust housing for weather resistance and a high-efficiency LED module for bright, energy-saving lighting.

Product Overview

High-Performance Outdoor Lighting

This high-intensity LED floodlight is engineered for demanding outdoor environments, providing reliable illumination for security, landscaping, and general-purpose applications. Constructed with a robust, weather-resistant housing, it ensures durability and long-term performance in various conditions. The unit features a high-efficiency LED module that delivers bright light while maintaining energy-saving operation, and includes an adjustable hinged mounting bracket for versatile positioning.

Technical Specifications

Lighting Technology	LED
Suitable Applications	Security Lighting, Landscape Lighting, General-Purpose Illumination

Construction & Design

Housing Material	Durable Aluminum Alloy
Mounting	Adjustable Hinged Bracket
Weather Resistance	Yes
