

# Outdoor LED Flood Light

High-performance LED flood light designed for outdoor illumination. It features a robust housing for durability and an IP66 rating for weather resistance.

## Product Overview

### High-Performance Outdoor Illumination

This outdoor LED flood light is engineered for durability and reliable performance in demanding environments. Featuring an IP66 weather-resistant rating, it ensures consistent operation against dust and water ingress. Designed for energy efficiency with a power factor exceeding 0.9, this unit offers a long operational lifespan of 30,000 hours, making it an ideal choice for professional lighting applications.

## Technical Specifications

### Power Options

- 50W
- 100W
- 150W

### Operational Lifespan

**30000 h**  
Lifespan

Input Voltage	AC85-265V
Power Factor	0.9

## Certifications & Ratings

### Ingress Protection

IP66
