Overview

High-Performance Outdoor Illumination

This high-performance LED floodlight is engineered for demanding outdoor environments, offering bright and uniform light distribution. Constructed with a robust die-cast aluminum housing, it ensures superior heat dissipation and corrosion resistance for long-term reliability. Its versatile design supports multiple mounting configurations, making it an ideal solution for stadiums, arenas, hotels, and general area illumination.

Technical Specifications

Construction Material	Punching press die-cast aluminum
Light Transmittance	98 %
Mounting Options	Wall Mounting, Ground Mounting, Ceiling Mounting
Connector Type	Water-proof and handy connectors

Applications

Recommended Applications

- Stadiums
- Arenas
- Hotels
- Wall Lighting
- Plant Facilities
