

Outdoor LED Floodlight

This flood light features a high-pressure die-cast aluminum housing with electrostatic powder coating and 4mm tempered glass. The compact light fixture includes a 0.27mm high-purity aluminum reflector.

Overview

High-Performance Outdoor Illumination

This industrial-grade floodlight is engineered with a high-pressure die-casting aluminum housing and treated with electrostatic powder spraying for superior durability. It features 4mm thick tempered glass and a high-purity aluminum reflector, ensuring both structural integrity and efficient light output. With an IP65 rating, this compact and robust fixture is designed to withstand harsh outdoor conditions, making it an excellent choice for security and general area lighting.
