

# Outdoor LED Solar Flood Light

This LED solar flood light is designed for outdoor illumination. Its integrated solar panel allows for autonomous operation, making it suitable for security and landscape lighting.

## Overview

### High-Efficiency Outdoor Illumination

This outdoor LED solar flood light is engineered for reliable, autonomous operation in diverse environments. Featuring a durable construction and an integrated solar panel, it eliminates the need for external power sources, making it an ideal choice for security, landscape, and general area lighting. The system is designed to provide consistent performance across various power requirements.

## Technical Specifications

### Available Power Options

- 40W
- 60W
- 120W
- 200W

<b>Model Number</b>	TTG-13
---------------------	--------

## Key Features

### Design Features

Integrated Solar Panel • Durable Construction • Autonomous Operation

<b>Ideal Applications</b>	Security Lighting, Landscape Lighting, General Area Illumination
