

Outdoor LED Solar Street Light

This LED solar street light is designed for outdoor illumination. It features a solar panel for charging and a built-in sensor for automatic operation.

Product Overview

High-Efficiency Outdoor Solar Lighting

This advanced LED solar street light is engineered for reliable outdoor illumination in various environments. It features an integrated solar panel for sustainable charging and high-output LED arrays for superior brightness. Designed for durability, the unit includes automatic sensor operation, making it an ideal choice for streets, pathways, and parking areas requiring energy-efficient lighting.

Technical Specifications

Recommended Applications

- Public Streets
- Pedestrian Pathways
- Parking Lots
- Outdoor Areas

Key Features

Solar Powered, Weather Resistant, Automatic Sensor, Energy Efficient

Performance

Operation Mode

Automatic sensor-controlled
