

Outdoor LED Solar Street Light

This LED solar street light is designed for outdoor lighting. Its integrated solar panel charges during the day to power the light at night, offering a sustainable lighting solution.

Overview

High-Efficiency Outdoor Solar Lighting

This outdoor LED solar street light is engineered for sustainable and cost-effective illumination in various outdoor environments. Featuring a robust, weather-resistant design, it efficiently harnesses solar energy during the day to provide reliable lighting throughout the night. It is an ideal solution for streets, pathways, and gardens requiring dependable, eco-friendly lighting performance.

Technical Specifications

Ingress Protection Rating

IP65

Durability

- Weather-resistant housing
- Dust-tight construction
- Water-resistant design

Power Source

Integrated Solar Panel

Recommended Applications

Streets, Pathways, Gardens, Outdoor Areas
