

# Outdoor LED Stone Light

This outdoor LED stone light provides ground-level illumination. Its durable construction ensures longevity in diverse weather conditions.

## Product Overview

### Sophisticated Architectural Lighting

The Outdoor LED Stone Light is designed to elevate modern building facades and architectural landscapes. Combining aesthetic appeal with robust construction, it provides high-performance illumination that complements geometric design elements. This professional lighting solution is ideal for high-end exterior projects requiring both durability and sleek, contemporary style.

## Key Features

### Design Attributes

Modern Architectural Design, Weather-Resistant, Minimalist Aesthetic, Geometric Integration

## Performance

### Lighting Performance

**3000 K**

Color Temperature

**50 W**

Power Rating

## Technical Specifications

### Construction Materials

- Reinforced stone composite
- Impact-resistant glass components
- Corrosion-proof mounting hardware
