

Outdoor Motorized TV Antenna

This outdoor TV antenna is designed for receiving digital television signals. It features a motorized rotation mechanism and robust construction for optimal performance in various weather conditions.

Product Overview

High-Performance Digital Reception

The DT-873C is a high-performance outdoor TV antenna engineered for optimal digital television signal reception. Designed with a robust, weather-resistant construction, this unit ensures durability in various environmental conditions. It features a motorized rotation mechanism that allows users to remotely adjust the antenna's direction for superior signal acquisition and clarity.

Technical Specifications

Frequency Compatibility	VHF, UHF
Rotation Mechanism	Motorized (Remote Controlled)
Signal Optimization	Yes

Package Contents

Included Items

- Outdoor Antenna Unit
- Control Box
- Remote Control
