

# Outdoor Pathway Lantern

This outdoor lantern provides ambient lighting for pathways and patios. Its durable, weather-resistant construction ensures longevity in outdoor environments.

## ADDITIONAL IMAGES

## Overview

### Robust Outdoor Lighting Solution

This general-purpose outdoor pathway lantern is designed for durability and versatility in various exterior environments. Constructed from a combination of aluminum, iron, and glass, it offers a reliable lighting solution for patios, entryways, and pathways. With support for multiple bulb types and a wide voltage range, it is adaptable to diverse international electrical standards.

## Technical Specifications

### Coverage Area

**15 m<sup>2</sup>**

Maximum Coverage

**10 m<sup>2</sup>**

Minimum Coverage

### Voltage Range

110V-240V

### Compatible Lampholders

E27, E14, LED

## Materials & Construction

### Materials

- Aluminum
- Iron
- Glass

### Production Technology

Powder-coating

## Certifications & Compliance

### Certifications

CE • UL

## Available Options

### Available Finish Codes
