

Outdoor-Rated LED Flood Light

This outdoor flood light features a robust design with a high protection class of IP65, ensuring resistance to dust and water ingress. It is suitable for various outdoor applications, providing reliable illumination in demanding environments.

Product Overview

Professional Outdoor Illumination

This outdoor-rated LED flood light is engineered for durability and reliable performance in demanding environments. Featuring an IP65 protection rating, it effectively resists dust and water ingress, making it an ideal solution for various outdoor applications. The design incorporates a high-efficiency reflector to ensure optimal light distribution, while the robust housing supports long-lasting operation and ease of maintenance.

Technical Specifications

Protection Class

IP65

Key Features

- High-efficiency reflector
- Robust housing construction
- Dust and water resistant

Capacitor Rating

-1.0mF

Installation

Easy installation and maintenance
