

Outdoor RGB LED Display, 3.91mm Pixel Pitch

This outdoor RGB LED display has a 3.91mm pixel pitch. It features a robust design, high brightness, and quick-locking mechanisms for easy assembly.

Product Overview

High-Performance Outdoor LED Display

This outdoor RGB LED display features a 3.91mm pixel pitch, engineered to deliver exceptional clarity and vibrant visuals even in challenging outdoor lighting conditions. Designed with a robust architecture, it supports fast assembly and maintenance through quick-locking mechanisms and an accessible rear service door. It is an ideal solution for large-scale advertising, live events, and high-impact outdoor installations.

Technical Specifications

Pixel Pitch	3.91 mm
Pixel Density	65536 dots/m ²
Module Size	250 x 250 mm
Resolution per Module	64 x 64 dots
Scan Mode	1/16S

Features

Installation & Maintenance

- Quick-locking mechanisms for fast assembly
- Rear service door for internal access
- High brightness for daylight visibility
- Robust design for outdoor environments

Control Capabilities

Brightness Adjustment, Color Calibration, Parameter Control
