

Outdoor Rock Speaker

This outdoor speaker is designed to resemble a natural rock, allowing it to blend seamlessly into gardens and landscapes. It features a weatherproof enclosure and a speaker driver.

Product Overview

Natural Sound Integration

This outdoor speaker is expertly designed to blend seamlessly into garden, patio, or landscape environments by mimicking the appearance of a natural rock. Engineered for exterior durability, it features a rugged, weatherproof enclosure that protects internal components from the elements. It provides an ideal audio solution for residential landscaping, commercial outdoor spaces, and theme-integrated sound systems.
