

Outdoor Weatherproof Directional Antenna

This outdoor antenna features adjustable angles and a design that enhances directional signal strength. Its structure is designed to prevent snow accumulation and wind interference, and it can be mounted on walls, masts, or railings.

Product Overview

High-Performance Outdoor Antenna

This revolutionary directional antenna is engineered for superior signal reception of Full HD, digital TV, VHF, and UHF signals. Featuring a robust, weather-resistant housing that is waterproof, anti-rust, and UV-protected, it is built to withstand harsh outdoor conditions while preventing snow stacking. Designed for versatility, the unit supports multiple mounting options including wall, mast, or railing, and includes an easy mounting kit for quick installation.

Key Features

Design Highlights

- Adjustable viewing angles
- Strongly directional reception
- Snow-stacking prevention structure
- Wind-flow optimized design
- Weather-resistant, anti-rust, and UV-protected housing

Mounting Versatility

Wall Mount, Mast Mount, Railing Mount, Attic Ready, Balcony Ready

Technical Performance

Signal Performance

105 dBuV

Output Level

3.5 dB

Noise Figure

75 ©

Impedance

Frequency Range

UHF: 470-608/698/790/862 MHz

VSWR

UHF < 2.3

Power & Electrical

Power Input

DC 5V / 550mA

Power Source

Included AC/DC Adaptor

Amplifier

Yes
