Overview

Robust Outdoor Protection

This Outdoor Weatherproof Equipment Cabinet is engineered to house and protect sensitive electronic equipment in demanding environments. It features a robust SPCC cold-rolled steel structure with an impressive static loading capacity of 800kg, ensuring both stability and security. The design prioritizes operational efficiency with removable panels, versatile cable entry points, and integrated ventilation to maintain optimal equipment performance.

Technical Specifications

Static Loading Capacity

800 kg
Static Load

Surface Treatment Process

- Degreasing
- Pickling
- Phosphoric
- Cleaning
- Powder Coated

Material	SPCC Cold Rolled Steel
Mounting Profile Thickness	2 mm
Panel Thickness	1.2 - 1.5mm

Design & Features

Mobility & Installation

Adjustable Feet • Castors Available

Door Configuration

Tempered Glass Front Door, Steel Rear Door, Removable Panels

Cable Entry

Top cover and bottom panel
