

Outdoor Weatherproof Timer Socket

This outdoor weatherproof timer socket is designed for reliable and safe use in outdoor environments. The timer allows for automated control of connected devices, enabling energy savings and convenience.

Product Overview

Reliable Outdoor Power Control

This outdoor weatherproof timer socket is engineered for dependable and safe operation in demanding outdoor environments. Featuring a robust, weather-resistant housing, it effectively protects against rain, dust, and environmental exposure. The integrated timer function allows for automated control of connected devices, promoting both energy efficiency and user convenience for applications such as garden lighting and pumps.

Key Features

Safety Features

- Protective socket cover
- Water ingress prevention
- Safe electrical operation

Durability & Protection

Weatherproof Housing, Dust Resistant, Rain Protection

Technical Specifications

Recommended Applications

Garden Lighting • Water Pumps • Outdoor Appliances

Installation & Setup

Yes
