

# Outdoor/Indoor TV Antenna

This amphibian antenna is suitable for both indoor and outdoor use. It features weather-resistant housing, making it waterproof, anti-rust, and UV protected.

## Product Overview

### Versatile TV Reception Solution

This amphibian TV antenna is engineered for both indoor and outdoor environments, offering a flexible solution for your reception needs. Its weather-resistant, UV-protected, and anti-rust housing ensures durability in various outdoor conditions, while the sleek finish maintains an aesthetic appeal. Designed for easy installation, it can be mounted on walls, masts, or railings, making it an ideal choice for balconies or eave mounting.

## Performance

### Key Performance Metrics

**3.5 dB**

Noise Figure

**75  $\Omega$**

Impedance

**40  $^\circ$**

Beam Width

## Technical Specifications

Frequency Range	UHF: 470-608/698/790/862 MHz
VSWR	2.1
F/B Ratio	12 dB
Polarization	Horizontal

## Power & Installation

Power Supply	DC 5V/550mA
Mounting Options	Wall Mount, Mast Mount, Railing Mount

## Features

### Durability & Protection

Weather Resistant • Waterproof • Anti-Rust • UV Protected

### Signal Capabilities

- Full HD Support
- Digital TV Signals
- Local UHF Signals
- Built-in Wide Band Amplifier
