

Oval Bulkhead Light

The oval bulkhead light is a robust and weatherproof lighting fixture designed for outdoor use. Its oval shape provides a wide beam angle, and the enclosed design protects the bulb from the elements.

Product Overview

Rugged Outdoor Illumination

The Oval Bulkhead Light is a professional-grade lighting solution designed to withstand harsh outdoor environments. Engineered with a robust housing and impact-resistant materials, this fixture ensures reliable, long-lasting performance for pathways, entrances, and perimeters. Its signature oval profile delivers an expansive beam angle, while the fully enclosed design provides essential protection against the elements.
