Product Overview

High-Efficiency Oven Fan Motor

This brushless DC (BLDC) motor is specifically engineered for oven fan applications, offering superior efficiency and reliability for kitchen appliances. Featuring a compact design with integrated electronic control circuitry, it ensures precise speed control and quiet operation. The unit includes a multi-blade fan assembly optimized for consistent air circulation and is built for long-term durability in demanding thermal environments.

Technical Specifications

Motor Technology	Brushless DC (BLDC)
Available Models	BLDC5210, BLDC42
Mounting Configuration	Three-point mounting bracket
Shaft Type	Hexagonal head

Compliance & Quality

Certifications

CE • UL • VDE • 3C

Regulatory Standards

RoHS, REACH, ISO 9001, ISO 14001
