

Oven Lamp Holder with Ceramic Base

This oven lamp holder is designed for high-temperature environments. It features a ceramic base, heat-resistant clear glass cover, and metal clips for secure lamp retention and electrical contacts.

Product Overview

High-Temperature Oven Lighting Solution

This DC2048 oven lamp holder is engineered specifically for demanding high-temperature environments, such as commercial and residential ovens. Built with a durable porcelain base, it offers exceptional heat resistance up to 300°C, ensuring reliable performance and safety. The unit supports flexible installation options, including both vertical and parallel connection configurations, making it a versatile component for various oven lighting applications.

Technical Specifications

Heat Resistance	300
Maximum Power	15 W
Base Material	Porcelain
Connection Options	Vertical, Parallel
Dimensions	41.5 x 41.5 x 28 mm

Logistics & Packaging

Packaging Information

Metric	Value
Quantity per Carton	200 pcs
Net Weight	12 kg
Gross Weight	14 kg
