

Over-Ear Headphones with Microphone

These over-ear headphones have an adjustable headband and integrated microphone for clear communication. The design incorporates cushioned earcups, a flexible microphone boom, and a standard audio connector, making them suitable for various devices.

Product Overview

Professional Communication Audio

These over-ear headphones are engineered for clear communication and reliable audio performance in professional settings. Featuring a 40mm driver unit and a flexible boom microphone, they provide balanced sound reproduction and voice clarity. The design includes cushioned earcups for comfort during extended use, making them an ideal solution for office, call center, or remote work environments.

Audio Performance
