

Over-Ear Wired Stereo Earphones

These over-ear earphones deliver stereo sound with a frequency range of 20Hz to 20kHz. Their 32 Ohm impedance ensures compatibility with a variety of audio devices.

Product Overview

Professional Audio Experience

These over-ear wired stereo earphones are designed for reliable, high-fidelity audio reproduction in a lightweight and ergonomic package. Engineered for both comfort and performance, they feature a secure fit suitable for active lifestyles and extended listening sessions. With a standard 3.5mm connection, they offer seamless compatibility with a wide range of audio devices for everyday use.

Technical Specifications

Frequency Range	20Hz - 20KHz
Impedance	32 Ohm
Maximum Power Input	60 mw
Sensitivity	91dB S.P.L. at 1KHz \pm 2%

Connectivity

Connector Type	3.5mm Stereo
Cable Length	1.2 m

Key Features

Product Highlights	Over-Ear Design, Wired Connection, Ergonomic Fit, Lightweight Construction, Stereo Audio
