

Overhead LCD Car Monitor

This overhead monitor is designed for in-car entertainment and display solutions. It features a high-resolution LCD screen, delivering crisp visuals and supporting various video input formats.

Product Overview

Premium In-Car Entertainment Solution

The Overhead LCD Car Monitor is a versatile display solution designed to enhance the in-vehicle entertainment experience for passengers. Featuring a high-resolution screen mounted directly to the vehicle ceiling, it provides an optimal viewing angle for multimedia content. Its durable, compact design ensures seamless integration into various vehicle interiors, while integrated lighting maintains visibility even in low-light environments.
