

P10 Outdoor LED Advertising Display Screen

This outdoor LED display screen features a 1R1G1B design for vibrant colors. Its high brightness ensures clear visibility in outdoor environments, even in direct sunlight.

Product Overview

High-Performance Outdoor Advertising Solution

This P10 outdoor LED display screen is engineered for high-impact advertising in challenging environments. Featuring a 10mm pixel pitch and superior brightness, it ensures clear visibility even in direct sunlight. The robust, IP65-rated design provides exceptional protection against water and dust, while advanced lightning protection ensures reliability during severe weather.

Technical Specifications

Pixel Pitch	10 mm
Pixel Density	10000 dots/m ²
Optimum Visual Distance	8 m
Visual Angle	110 degrees
Control System	Linsn802

Physical Dimensions

Modular Size	160mm x 160mm
Cabinet Size	960mm x 800mm

Durability & Protection

Protective Grade	IP65 • Waterproof • Dustproof
Lightning Protection	Yes
