

Packaging Machinery

Packaging machinery automates the process of enclosing or protecting products for distribution, storage, and sale. These machines streamline operations, enhancing efficiency and precision in various packaging processes.

Product Overview

High-Performance Underwater Illumination

This professional-grade underwater LED light is engineered from durable stainless steel, offering exceptional resistance to corrosion and long-term reliability in submerged environments. Featuring a high-intensity LED array in a circular configuration, it delivers optimal, uniform illumination for pools, ponds, and fountains. The included mounting bracket ensures secure installation with adjustable positioning for precise lighting control.

Physical Dimensions

Face Diameter	160 mm
Overall Height	210 mm
Mounting Projection	90 mm

Construction & Design

Material	Stainless Steel
Installation	Mounting Bracket Included, Adjustable Positioning

Application

Suitable Environments

- Swimming Pools
- Ponds
- Fountains
