

Packaging Machinery

Packaging machinery automates the process of wrapping, sealing, and labeling products. These machines enhance efficiency and consistency in preparing goods for distribution.

Product Overview

High-Performance Roofing Fasteners

These high-quality roofing nails are engineered for superior holding power and reliable weather protection. Featuring a broad umbrella head design, they ensure enhanced sealing capabilities to prevent leaks. The twisted shank construction provides excellent resistance to pull-out, making them an ideal choice for secure and long-lasting roofing installations.

Technical Specifications

Shank Design	Twisted
Head Style	Umbrella Head
Minimum Diameter (Before Forming)	18 mm

Key Features

Performance Benefits	Corrosion Resistant, High Holding Power, Enhanced Sealing, Weather Protection
