Product Overview

Professional Grade Paint Roller

This polyamide paint roller is designed for medium complex applications, offering excellent paint absorption and release capabilities. The 18mm pile height ensures consistent coverage, making it ideal for dispersion, latex, and silicon-based paints. Its ergonomic design minimizes fatigue, while the durable construction supports repeated use on various surfaces.

Technical Specifications

Material	Polyamide
Pile Height	18 mm
Compatible Paints	Dispersion Paints, Latex Based Paints, Silicon Based Paints

Usage & Maintenance

Application Complexity

Medium Complexity

Care Instructions

- Wash with water and soap before first use
- Press roller after washing to remove loose fabric fibers
- Designed for easy cleaning and reuse

Design Features

Handle Design

- Ergonomic grip for reduced fatigue
- Secure grip construction
- Integrated hanging hole for storage

Frame Material

Durable Metal
