Product Overview

Efficient Palm Fruit Harvesting

This palm fruit harvester is a specialized tool designed to streamline the harvesting process while ensuring operator safety. Featuring a long, lightweight pole, it allows users to access fruits high in palm trees without the need for climbing. The cutting head is engineered for clean, precise cuts that maximize yield and minimize damage to the trees, making it an essential tool for professional agricultural environments.

Engine Specifications

Maximum Power

0.75 kW
Max Power

7500 r/min
Rated Speed

Engine Model	1E34F
Displacement	25.4 cc
Fuel Tank Capacity	0.65 L
Mixed Fuel Ratio	25:1

Physical Dimensions

Total Length	3 m
Cylinder Diameter	34 mm

Features

Key Features

- Lightweight pole for extended reach
- Ergonomic handle design
- Adjustable shaft for precise control
- Durable construction for agricultural use
