Product Overview

High-Performance Digital Reception

This paper-thin digital TV antenna is engineered for optimal reception of over-the-air broadcast signals in both VHF and UHF bands. Its ultra-slim, discreet profile allows for versatile indoor mounting on walls or windows, blending seamlessly into any environment. Equipped with a high-gain amplifier and advanced filtering technology, it ensures reliable signal strength, reduced interference, and crisp 1080p HD picture quality for a superior viewing experience.

Technical Specifications

Model Number	DVB-T341
Frequency Range	174-230MHz, 470-862MHz
Receiving Range	VHF/UHF
Antenna Gain	22 dB
Impedance	75 Ω
Noise Figure	<3dB

Power & Compatibility

Power Supply Options

5 V/50mA

AC/DC Adapter

5 V/40mA

DTV Set-top Box

Features

Key Features

- Paper-thin, slim profile for discreet placement
- Supports 1080p HD broadcast signals
- High-gain amplifier to reduce signal dropout
- Suitable for indoor wall or window mounting
- Advanced filtering to minimize interference
