

Parallel Printer to USB Adapter Cable

This adapter cable allows you to connect a parallel printer to a USB port on your computer. It supports data transfer rates up to 12 Mbps and is compatible with most parallel printers.

Product Overview

Seamless Connectivity for Legacy Hardware

This USB to Parallel Printer Adapter Cable provides a reliable solution for connecting legacy parallel printers to modern computers that lack parallel ports. Designed for ease of use, it features a standard USB Type-A connector and a 36-pin Centronics connector, ensuring broad compatibility with most parallel printers. This plug-and-play device eliminates the need for complex driver installations, making it an ideal choice for professional environments requiring continued use of high-quality older printing equipment.

Technical Specifications

Max Data Transfer Rate

12 Mbps

Transfer Speed
