

Passenger Tricycle with Covered Cabin

This tricycle is designed for transportation purposes. It features a covered passenger area and a front windshield with wipers.

Overview

Passenger Tricycle with Covered Cabin

The C24 tricycle is a robust, three-wheeled transportation vehicle designed for reliable passenger or cargo transit. It features a fully covered cabin to protect occupants from the elements and is equipped with functional safety features including a front windshield with integrated wipers, headlights, and side mirrors. Its distinct black and yellow color scheme ensures high visibility for professional street operations.
