Product Overview

High-Performance PCD Grinding Solution

This PCD concrete grinding block is engineered for aggressive material removal and surface preparation on concrete floors. It excels at stripping away tough coatings like epoxy, paint, varnish, glue, and thick rubber materials while leveling high spots. Designed for durability and efficiency, this professional-grade tool ensures a smooth, prepared surface ready for subsequent polishing or coating treatments.

Technical Specifications

Segment Dimensions	40 x 10 x 14 mm
Segment Quantity	2 pcs
Materials	45# Steel, Alloy, Diamond, PCD

Compatibility & Application

Connection Types

- ~~Æ16mm~~
- ~~Æ20mm~~
- ~~Æ22.23mm~~
- M14
- M16
- 5/8"-11

Surface Removal Capabilities

Paint • Varnish • Glue • Epoxy • Acrylic • Screed residue • VCT mastic • Black tar adhesive • Rubber
