

# Perforated Metal BBQ Grilling Plate with Wooden Handle

This BBQ grilling plate features a perforated design for optimal grilling and smoking. It is equipped with a wooden handle for a comfortable grip and a hanging loop for convenient storage.

## Product Overview

### Professional Grilling Performance

This round perforated metal BBQ plate is engineered for optimal heat distribution and smoke circulation, making it an essential tool for grilling delicate foods. Designed with a durable metal construction, it withstands high temperatures while preventing small items like vegetables, seafood, and finely cut meats from falling through the grill grates. The integrated wooden handle ensures a comfortable grip, while the convenient hanging loop simplifies storage in busy commercial or outdoor kitchens.

## Design & Construction

Material	Durable Metal
