

Permanent Magnet DC Motor 220V 6000 RPM

This is a permanent magnet DC motor designed for various applications. It operates at a voltage of 220V and has a rated speed of 6000 RPM.

Overview

High-Performance Permanent Magnet Motor

This permanent magnet DC motor is engineered for reliable performance in various industrial and commercial applications. Operating at a standard 220V voltage, it delivers a consistent rated speed of 6000 RPM. Designed for efficiency and durability, this motor is a robust solution for power-driven systems requiring precise speed control.

Technical Specifications

Rated Voltage	220 V
Rated Speed	6000 RPM
Rated Current	0.54 A
Motor Type	Permanent Magnet DC Motor
Model Number	ZYT-80-05
